

INTRODUCING QT LOYALTY POINTS

To reward you, our valued customer, Quick-teck has now released a loyalty point scheme.

The following explains how you will receive the points from us.

How it works...

1. Receiving loyalty points:

£1 of your manufacturing spends equals to 10 points.

£1 of your assembly spend equals to 3 points.

£1 of your components spend equals to 2 points (also valid for some other services, like 3D printing, stencil.).

Your new loyalty points will be automatically calculated and added to your account each quarter (on the first working day of the following quarter).

Services	Collected points	Voucher
£1 on PCB manufacturing	10	Every 10,000 points can be converted to a £30 discount(valid for 12 months after been issued)
£1 on PCB assembly	3	
£1 on components and other services	2	

2. Spending loyalty points:

Once your loyalty points reach 10,000, you can convert your points into a **£30** discount voucher. This is equal to a **3%** discount.

Your £30 voucher will be valid for spending against any future Quick-teck order for 12 months.

3. Check your points and activate your voucher code:

Log into your account, and go to the 'Order list' page, you will see your valid loyalty points at the top of this page.

You can also see the history of your earned and spent points, by clicking on the number of the points. Once your loyalty points reach 10,000, you can click the 'Convert points to voucher' link. A £30 voucher will be added to your voucher list and the used points will be deducted from your total points.

[Convert points to voucher \(10,000 points = £30\)](#)

Order List

Number	WDs	Target date	Qty	Paid	Amount	Contact name	Manufacutre data	Order status	Details
--------	-----	-------------	-----	------	--------	--------------	------------------	--------------	---------

4. Using your voucher:

Go to your 'Voucher' tab, your voucher codes will be stored here until they are used or expire. Simply enter your code at checkout. Please note each voucher can be

used only once.

5. FAQ:

How long do your loyalty points remain valid?

Your loyalty points will remain valid until the end of the next calendar year. After this time, the expired points will be deducted from your total.

How long will the voucher remain valid?

Once you have used your loyalty points to create a voucher, the voucher will be valid for 12 months.

Maximizing your loyalty points:

We strongly suggest you use one account when placing order with us. This way, you can check details of all your historic orders and loyalty point in one place. If you have more than one account, please let us know and then we can combine them. If you have to have more than one account, let us know and we will check if we can correlate them.

If you have not register an account with us, please do so before your next order. For your previous orders, if you know the order number, please send them to us and then we can combine them to your registered account.

To avoid losing expired points, we suggest you active a voucher once your loyalty points reaches 10,000.

At Quick-teck we will always endeavor to provide the best service for you. If you have any problems about this system, please do let us know. We look forward to long term cooperation with you.

Sincerely,

Quick-teck Electronics Limited
